SAMPLE
Tube Feeding and Flushing Record

Name: Mary Louise H.

Month: July 2009

Mary Louise is ordered bolus feedings four times per day (current orders dated May 22, 2009). She is ordered one can of Osmolite for each feeding (1 can = 8 ounces/240cc). She is also ordered to receive a flush of 60cc of water before and after each feeding. Please document when she is fed and flushed according to the schedule below. If Mary Louise is at day program, please write day program in the appropriate time slot.
