

## Health Promotion Activities Plan

**\*\*This sample is to assist you in developing a health promotion activity plan. It is not intended to replace medical advice. Any instructions given by the physician regarding this diagnosis must be included.**

Name of Individual:

Health Concern/Issue * (Diagnosis)	<b>BARRETT'S ESOPHAGITIS</b>
Related Body System	Vision      Respiratory      Lymphatic      Dental      Hearing <b>Digestive</b> Integumentary (Skin)      Endocrine Cardiovascular      Nervous      Musculoskeletal      Genitourinary      Blood
What is it? (Provide definition)	The lining of the esophagus (muscular tube that carries food and saliva from the mouth to the stomach) changes due to irritation from gastroesophageal reflux (GERD). Small number of people may develop esophageal cancer.
Signs and Symptoms (general)	May be no symptoms at all. GERD symptoms: regurgitation (bringing food back up from stomach to mouth), belching, chronic cough, hoarseness, bad breath, change in appetite (increase or decrease), PICA (eating inedible objects), fingers in mouth, pain in chest, upset after meals, awake during night or unable to go to sleep.
Signs and Symptoms (specific to the person)	
Promotion/strategy support required * List very specific steps that the individual and/or caregivers use to support the person's health condition.  Include information about monitoring health status. Who is called for changes/problems in this person's health condition?  What is tracked, where it can be found, and who follows up on documentation required for this health condition?  Who provides what training for the person and staff about the health condition and when?	<ul style="list-style-type: none"> <li>➤ Watch <u>(name of person)</u> for signs and symptoms listed above and report to <u>(title of person in agency who is responsible to receive this information)</u>.</li> <li>➤ Give medication as ordered (see Medication Administration Record/Log). If a prn (as needed) medication is given, the result must be documented per agency policy.</li> <li>➤ <u>Include any specific instructions from the treating physician</u>. For example, are any foods to be avoided, any certain body positions to avoid after eating? Also include anything else the physician would like the team to observe and report.</li> <li>➤ Ensure that <u>(name of person)</u> receives diet recommended by physician <u>(list diet here)</u>.</li> <li>➤ Documentation about this condition can be found in the medical record under <u>(list section here)</u>.</li> <li>➤ Receive training regarding this diagnosis and plan of care (include when to notify the physician) by <u>(title of person who provides medical training)</u> at least <u>(indicate frequency of training)</u> or as changes occur. This should be documented for all staff in the home.</li> <li>➤ .</li> </ul>
Frequency of support *	<i>Fill in what physician (e.g. primary care physician, gastroenterologist) treats this condition and how often the person is seen.</i>
Desired outcome *	To recognize symptoms as soon as possible and obtain treatment.
Person/agency responsible *	<u>(Name of person)</u> , caregivers, agency nurse, primary care physician, <u>(specialist, if applicable)</u> <i>(The responsible parties may vary according to your agency; please place specific roles in this section. Some other examples might be health care coordinator, program specialist, house manager.)</i>
