

Health Promotion Activities Plan

****This sample is to assist you in developing a health promotion activity plan. It is not intended to replace medical advice. Any instructions given by the physician regarding this diagnosis must be included.**

Name of Individual:

Health Concern/Issue * (Diagnosis)	CEREBRAL VASCULAR ACCIDENT (STROKE) – <i>This plan is for someone who has had a stroke. Sudden signs such as dropping, vision changes, inability to walk or talk, facial droop, or weakness on one side of the body may be signs of a stroke in progress and would need immediate attention – call 911</i>
Related Body System	Vision Respiratory Lymphatic Dental Hearing Digestive Integumentary (Skin) Endocrine Cardiovascular Nervous Musculoskeletal Genitourinary Blood
What is it? (Provide definition)	Disruption of the blood supply to a part of the brain resulting in tissue death in that area of the brain and corresponding neurological deficits
Signs and Symptoms (general)	Symptoms are dependent on the area of the brain affected, but may include weakness, paralysis, memory loss, dysphagia (difficulty swallowing), difficulty speaking clearly, depression; symptoms usually occur on one side of the body
Signs and Symptoms (specific to the person)	
Promotion/strategy support required * List very specific steps that the individual and/or caregivers use to support the person's health condition. Include information about monitoring health status. Who is called for changes/ problems in this person's health condition? What is tracked, where it can be found, and who follows up on documentation required for this health condition? Who provides what training for the person and staff about the health condition and when?	<ul style="list-style-type: none"> ➤ Watch <u>(name of person)</u> for signs and symptoms listed above and report immediately to <u>(title of person in agency who is responsible to receive this information)</u>. ➤ Give medication as ordered (see Medication Administration Record/Log). If a prn (as needed) medication is given, the result must be documented per agency policy. ➤ Ensure that <u>(name of person)</u> receives diet recommended by physician <u>(list diet here)</u>. ➤ <u>Include any specific instructions regarding this diagnosis from the treating physician.</u> For example, stop smoking, weight loss plan, exercise plan, therapies (occupational, speech, physical) ➤ Documentation about this condition can be found in the medical record under <u>(list section here)</u>. ➤ Receive training regarding this diagnosis and plan of care (include when to notify the physician) by <u>(title of person who provides medical training)</u> at least <u>(indicate frequency of training)</u> or as changes occur. This should be documented for all staff in the home.
Frequency of support *	<i>Fill in what physician (e.g. primary care physician, cardiologist, vascular specialist) treats this condition and how often the person is seen.</i>
Desired outcome *	To recognize symptoms as soon as possible to obtain treatment
Person/agency responsible *	<u>(Name of person)</u> , caregivers, agency nurse, primary care physician, <u>(specialist, if applicable)</u> <i>(The responsible parties may vary according to your agency; please place specific roles in this section. Some other examples might be health care coordinator, program specialist, house manager.)</i>
