

End of Life Planning

Resources and Guidance

“Working with the Team”

Support Sub-Committee Comments

The Support Sub-Committee...

- Is committed to provide teams with skills necessary to engage an individual with I/DD in planning for end of life decisions through acknowledging personal, cultural and spiritual beliefs in the decision making process.
- In meeting, this subgroup determined that many of the difficulties with starting End of Life Planning begin with lack of information about the issues, roles of various team members and a general lack of comfort in initiating these discussions. The following tools were devised as a means of increasing these abilities:
